Dear \_\_\_\_\_

The Vision Quilt Project is now one year old! We are reaching out to communities nationally and currently more than 300 completed panels. We have just formed our own nonprofit and are seeking funding for our continuing work. Funders will want to know what impact the Vision Quilt has had.

In several locations around the United States, volunteers have offered educational programs based on Vision Quilt workshops. As I write, new programs are underway. Often, the cost of materials is a barrier for low-income groups, so we are seeking funding to underwrite the cost of materials and coaching for new Vision Quilt workshops.

I am writing to you because you participated in the Vision Quilt Project. If you are willing, it would be extremely helpful to us to have a brief statement from you about the impact of the Vision Quilt workshop as you witnessed it, a statement we may share with potential funders. You may reply to me by return email.

As ever, thank you for your assistance!

Cathy DeForest
